

# Year 11 Bulletin

## Dates for your diary

Check the bulletin for college open events

Check you have the date for your speaking exam

Easter plan: have a timetable but timetable in some down time around your revision!

## Easter Holiday Plan

Do plenty of past papers

Past papers are the most important aspect of revision. They allow you to:

- Check how well your content learning and understanding is really going
- Practice your exam skills
- See how the examiner really wants you to express what you know and understanding

Maybe try the revision 'power hour' in bulletin number 10 and see how that technique works.

This Easter holiday is probably the last time you'll have a stretch of time to yourself to use in the way that suits you best.

**Make the most of it.** It is your responsibility to get the best grades you're capable of. Seize the opportunity of these two weeks with both hands. **You can do this.**
